

HARMONY

ALLIANCE

Connect with us at the 4th European Myeloma Network Meeting

20-22 April 2023, Beurs van Berlage
Amsterdam, The Netherlands

Participate in EMN-HARMONY joint session (XI)
about Big Data innovations in Multiple Myeloma:
New analytic tools and new insights.
22 April 2023, 10.05 - 11.05 hrs.

EMN

Big Data innovations in Multiple Myeloma: Novel analytic tools and insights

Big Data innovations can support hematologists in selecting the best treatment for Myeloma patients. In the past six years, the HARMONY Alliance has built a Big Data Platform that facilitates state-of-the-art Big Data research projects in myeloma and other blood cancers.

We invite hematologists to become involved and submit research proposals that utilize this infrastructure to improve the treatment of Myeloma patients.

Participate in the EMN-HARMONY Joint session XI

Date/time: Saturday 22 April 2023 from 10.05 until 11.05 hrs.

Theme: Big Data innovations in Multiple Myeloma:
New analytic tools and new insights

CHAIRS

Jesus Hernandez Rivas
IBSAL
HARMONY Alliance
Coordinator

Pieter Sonneveld
Erasmus MC, EMN
HARMONY Alliance
Partner

PART 1 - The HARMONY Alliance: General update, achievements of 6 years and insights in the HARMONY Alliance data lake: AML Research Projects as example.

Jesus Hernandez Rivas
IBSAL
HARMONY Alliance
Coordinator

Alberto Hernández
University Hospital of
Salamanca
HARMONY Alliance
Partner

PART 2 - EMN-HARMONY Collaboration – MM Research Projects: The added value of working with the HARMONY Big Data Platform, the MM data lake and big data analytic tools.

Perspective from an academic
HARMONY Partner

Mattia D'Agostino
University of Turin
Lead HARMONY Alliance
Research Project

Alexander Russell-Smith
Pfizer
Lead HARMONY Alliance
Research Project

Perspective from an industry
HARMONY Partner

PART 3 - The added value of including PROMs/PREMs data in research projects now and in the future.

Heinz Ludwig
Wilhelminen Cancer
Research Institute
HARMONY Alliance
Partner

Hans Scheurer
MPE (Myeloma Patients
Europe)
HARMONY Alliance
Partner

PART 4 - EMN-HARMONY Collaboration continued: Opportunities for new MM Research projects focusing on collecting PROMS (Patient Reported Outcome Measures) and PREMS (Patient Reported Experience Measure)

Interaction and Q&A

Welcome to our booth

Joint session participants and EMN2023 conference attendees are invited to the HARMONY Alliance booth nr. 7 at the EMN2023 exhibition to learn more about the Big Data Platform, Research Projects and how to become involved.

#EMN23

The HARMONY Alliance is a public-private European Network of Excellence for Big Data in Hematology. Our mission is to unlock and spread valuable knowledge on hematologic malignancies (blood cancers) among a large number of stakeholders, with the goal to harness and mine Big Data to speed up the development of improved treatments for patients and more effective treatment strategies.

The HARMONY Alliance consists of two projects funded through the Innovative Medicines Initiative (as of 2022 called IMI, Innovative Health Initiative); HARMONY and HARMONY PLUS. Funding is received from the IMI 2 Joint Undertaking and is listed under grant agreement for HARMONY No. 116026 and grant agreement for HARMONY PLUS No. 945406. This Joint Undertaking receives support from the European Union's Horizon 2020 Research and Innovation Programme and the European Federation of Pharmaceutical Industries and Associations (EFPIA)
