Beware that this email was not sent from inside EHA

Welcome to the April issue of EHA News. In this issue, we invite you to join the EHA Congress, check out EHA mentoring opportunities, read the latest issue of HemaSphere, and more.

Be part of the 24th EHA Congress

Do you have new, exciting and groundbreaking results of clinical or non-clinical research that were not available before the EHA24 regular abstract submission deadline on March 1? Submit your late-breaking abstract between May 13-16 (23:59 CEST).

[Read more >](#)

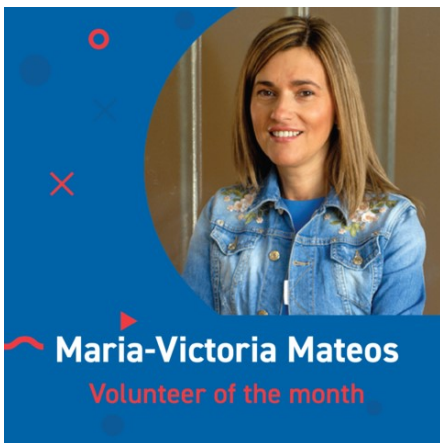

Take advantage of EHA mentoring opportunities

Also via non-monetary awards, EHA strives to accelerate the careers of promising post-docs in translational or clinical research. Would you like to be mentored and coached by top-tier experts in their field? Learn from their valuable career lessons and scientific experience. If your ambition is to be a PI, Research Training in Hematology is for you.

Meet our volunteer of the month

The Annual EHA Congress is the largest gathering of hematology professionals in Europe. This year, Professor Maria Victoria Mateos is at the lead of the Scientific Program Committee, the EHA committee that ensures the quality of the congress program. Know more about her and her EHA volunteerism story.

HemaSphere latest issue, now available

The landscape of KMT2A-PTD AML

This study demonstrates that KMT2A-PTD acute myeloid leukemia has a distinct gene expression signature, and that concomitant DNMT3A and NRAS mutations are associated with adverse clinical outcome in this subset of AML.

HemAffairs: EHA supports collaborative HTA

Blood cancers are in the top ten of the most common forms of cancer and are responsible for approximately 100,000 deaths in Europe every year. This and the cost of blood disorders were discussed at the 7th EAPM Presidency Conference in Brussels this month.

HARMONY Alliance Anonymization Concept reconciles data quality, safety and privacy

In this digital age, responsible privacy and security guidelines must be developed to maintain public trust. The public-private-partnership HARMONY Alliance takes great care to follow ethical principles for biomedical research to ensure that no mistakes are made.

EHA | Towards a cure for all blood disorders

The European Hematology Association (EHA) promotes excellence in patient care, research and education in hematology. EHA envisions a world without blood disorders by connecting hematologists worldwide, supporting their career development and research, harmonizing hematology education and advocating the interests of hematology and hematologists in the European arena.
