

## Joint Session | Program

EMN2023 | Saturday, 22 April, from 10.05 till 11.05 hrs., SESSION XI

# Big Data innovations in Multiple Myeloma: New analytic tools and new insights.

---

**10:05-10:20** – part 1 – **The HARMONY Alliance: General update, achievements of 6 years Operational and latest results of the AML data lake**

[Jesus Hernandez Rivas](#), IBSAL, HARMONY Alliance Coordinator  
*Impactful achievements, vision and plans for the future*

[Alberto Hernández](#), University Hospital of Salamanca, HARMONY Alliance Partner  
*Collected data in the data lake, results of the AML projects*

---

**10:20-10:30** – part 2 – **EMN-HARMONY Collaboration – current MM Research Projects: The added value of working with the HARMONY Big Data Platform i.e. the MM data lake and big data analytic tools**

**Chair** [P. Sonneveld](#), Erasmus MC, EMN, HARMONY Alliance Partner and MM KOL

[M. D'Agostino](#), University of Turin, project lead HARMONY Alliance Research Project  
*Perspective from an academic HARMONY Partner.*  
(link to research project: [Optimizing prognostication and personalizing treatment in Multiple Myeloma >](#))  
(Link to latest [press release dd 23 June 2022 >](#))

[Alexander Russell-Smith](#), Pfizer, project lead HARMONY Alliance Research Project  
*Perspective from an industry HARMONY Partner.*  
(link to research project: [MM-2: Contextualizing clinical trials by developing robust historical control arm cohort >](#))

**10:30-10:35** - **Q&A**

---

**10:35-10:55** – part 3 – **EMN-HARMONY Collaboration - opportunities for new MM Research projects focusing on collecting PROMS (Patient Reported Outcome Measures) and PREMS (Patient Reported Experience Measure)**

[Heinz Ludwig](#) – Wilhelminen Cancer Research Institute, HARMONY Alliance Partner  
*The added value of including PROMs/PREMs data in research projects now and in the future.*

[Hans Scheurer](#), MPE (Myeloma Patients Europe), HARMONY Alliance Partner, representing the HARMONY Alliance Patient Cluster  
*The potential of harmonisation of data collections and setting standards for core outcomes (incl. QoL and PRO data) to improving insight in hematological diseases*

**10:55-11:05** – **Interaction/discussion - End of the joint session at 11:05**

## General information

- 4<sup>th</sup> European Myeloma Network Meeting, 20-22 April 2023, Beurs van Berlage, Amsterdam, the Netherlands
- Format: On-site
- The HARMONY-EMN Joint session will take place Saturday, 22 April, 10.05 till 11.05 hrs.
- Session nr: XI
- Link to EMN2023 website: <https://www.emn2023.com/>
- Link to [meeting post at HARMONY Alliance website >](#)
- Hashtag: #EMN23 | Tag @EMN\_EuMMnet and @HARMONYNetEU, #bigdataforbloodcancer

## HARMONY Alliance activities at EMN2023

- EMN-HARMONY Alliance Joint Session.
  - *The participants of the joint session are invited to meetup in the booth at the exhibition for further talks.*
- HARMONY Alliance mini-booth at the EMN2023 exhibition to share general information and function as meeting point to learn more about the MM data and research activities.
  - *Our speakers are encouraged to make 'use' of the mini-booth as meeting point.*
- Various communications activities
