

# HARMONY

Healthcare Alliance for Resourceful Medicines  
Offensive against Neoplasms in Hematology

Let's meet in Amsterdam at the 24th Annual Congress of the European Hematology Association.

The HARMONY Alliance uses big data analytics to accelerate the development of personalized treatments for patients with Hematologic Malignancies. HARMONY is a unique partnership of more than 80 public, private and patient organizations, funded by the Innovative Medicines Initiative.

**#Bigdataforbloodcancer: HARMONY can accelerate your research to benefit patients with Hematologic Malignancies.**

HARMONY researchers are already mining the unique HARMONY Big Data Platform to address pressing research questions in ALL, AML, CLL, MDS, NHL, MM, and pediatric HMs.

We are looking forward to connecting with you and to discuss the impact big data will have on health and in particular on hematology.

**15 June 2019 | 14:45 - 16:15 hrs. | Hall E106**

**Join the HARMONY 'Big Data in Hematology' Session and learn about the HARMONY Big Data Platform and about the current 7 HARMONY Research Projects. Find our detailed program in the enclosure.**

**15 June 2019 | 16:15 - 17:15 hrs. | Hall D201**

**Participate in the HARMONY Partnering meeting and learn how becoming involved can benefit your research. Please let us know that you will attend and send an email to [e.dewaal@ehaweb.org](mailto:e.dewaal@ehaweb.org).**

**13-16 June 2019 | Exhibition Hall**

**Connect at our mini-booth at the EHA Collaboration Plaza in exhibition hall. We are looking forward to sharing our ideas and goals about big data in hematology. Please email us to set a date and time.**

## Enclosure

# Program HARMONY Session

**#Bigdataforbloodcancer: HARMONY can accelerate your research to benefit patients with Hematologic Malignancies.**

Session: **15 June | 14:45 – 16:15 hrs. (90 minutes) | E106**

- 14:45-14:52 **Big Data in hematology to accelerate research**  
**Prof Bob Löwenberg**, Erasmus MC, The Netherlands –  
Chair HARMONY Advisory Board
- 14:52-15:02 **HARMONY Milestones & Outlook**  
**Pam Bacon**, Celgene, Switzerland – HARMONY Co-Lead  
**Guillermo Sanz**, HULAFE, Spain – HARMONY Co-Chair
- 15:02-15:09 **Patient involvement in the HARMONY Alliance**  
**Zack Pemberton-Whiteley**, Acute Leukemia Advocates Network -  
HARMONY Patient Cluster
- 15:09-16:10 **Algorithms to transform knowledge into better medicine outcomes**  
Highlighting HARMONY Projects where Big Data in Hematology accelerates  
research to improve outcomes for patients with HM.
- ALL: **Anthony Moorman**, Newcastle University, United Kingdom
  - AML: **Lars Bullinger**, Charité University Medicine, Germany
  - CLL: **Paolo Ghia**, ERIC
  - MDS: **Pierre Fenaux**, AP-HP, France
  - MM: **Mario Boccardo**, Università di Torino, Italy
  - NHL: **Natacha Bolaños**, Lymphoma Coalition
  - EFPIA: **Bruno Costa**, Celgene, Switzerland
- 16:10-16:15 **#Bigdataforbloodcancer: Join us accelerate research to benefit HM patients**  
**Jesus Maria Hernandez Rivas**, IBSAL

Session participants interested to collaborate are welcome to attend the  
HARMONY Partnering Meeting: **15 June | 16:15 – 18:00 | Hall D201**

## **About the HARMONY Alliance: Healthcare Alliance for Resourceful Medicines Offensive against Neoplasms in Hematology.**

HARMONY is a public-private European Network of Excellence for Big Data in Hematology, established in January 2017. Our mission is to unlock and spread valuable knowledge on hematologic malignancies (blood cancers) among a large number of stakeholders, with the goal to harness and mine Big Data to speed up the development of improved treatments for patients and more effective treatment strategies.

HARMONY currently has 53 Partners and 32 Associated Members from 22 countries. HARMONY is funded through the Innovative Medicines Initiative (IMI), Europe's largest public-private initiative aiming to speed up the development of better and safer medicines for patients.

HARMONY has received funding from IMI 2 Joint Undertaking and is listed under grant agreement No. 116026. This Joint Undertaking receives support from the European Union's Horizon 2020 Research and Innovation Programme and the European Federation of Pharmaceutical Industries and Associations (EFPIA). IMI supports collaborative research projects and builds networks of industrial and academic experts in order to boost pharmaceutical innovation in Europe.
